This book was quoted directly, and expanded on by Mani, becoming one of the original six Syriac writings of the Manichaean Church. He holds also that God has no part with the world itself, and finds no pleasure in it, by reason of its having been made a spoil of from the first by the princes, and on account of the ill that rose on it.

In every language and region that Manichaeism spread to, these same deities reappear, whether it is in the original Syriac quoted by Theodor bar-Konai, or the Latin terminology given by Saint Augustine from Mani's , or the Persian and Chinese translations found as Manichaeism spread eastward. Archelaus said: If it is at all possible for one or another, or several, as you admit, not to sin, it is also possible for all to do the same; for they are all of one parent, and are all men of one lump. For you are a strange sheep; nevertheless hereafter you will be introduced into the number

of the same flock, as the voice of Jesus I also intimates,--that Jesus, namely, who appeared in the form of man indeed, and yet was not a man.

Surely it is the abstinence I of goodness, indeed, when one makes but a moderate use of what is really necessary, and gives up all that goes beyond that. Natural phenomena such as rain were seen as the physical manifestation of this spiritual contention. This part should be regarded as an interpolation; its origin can be dated to the first or second half of the 5th century because of some historical references in the text e.
