## The Blockade Runner

He was made President of the Royal Society, but was not a success and after resigning due to ill health he again toured the Continent, dying in Geneva. During his school days at the grammar schools of Penzance and Truro he showed few signs of a taste for scientific pursuits or indeed of any special zeal for knowledge or of ability beyond a certain skill in making verse translations from the classics and in storytelling.

## 4. Sir Humphry Davy

A few months after his marriage he published the first and only volume of his Elements of Chemical Philosophy, with a dedication to his wife, and was also re-elected professor of chemistry at the Royal Institution, though he would not pledge himself to deliver lectures, explaining that he wished to be free from the routine of lecturing in order to have more time for original work.

## Humphry Davy (1778)

Ford use any fuel at all help drivers save more money on running costs, since they use any fuel. Geography game - Think you're good at geography? Scholars dispute whether Niemann or Gaedeke was first to do this.

## Remote Learning

After their return in the spring of 1815, Faraday helped Davy with inventing the safety lamp, and generally learnt his new career as a chemist. At those lectures elderly scientists and scholars had watched, astonished, as Michael, sitting up in the gallery, had listened with rapt attention, scribbling furiously in his notebook and drawing with facility the apparatus which Sir Humphry used to illustrate his points.

## Sir Humphry Davy

Sending letters or issues of scientific journals between Britain and the European continent had been difficult ever since the beginning of war in 1793. Ready to do battle with our sometimes cryptic pictures? Well done everyone, you have blown us away with your talents yet again.

**Genius Sir Humphry Davy from Cornwall pioneered recreational use of laughing gas**

It belongs to the world, and is of no country and of no age.
