Yet a recovery of private sector investment is essential for sustained recovery, once existing capacity becomes full utilised with the greater availability of foreign exchange; and private sector investment cannot be expected to recover while the civil service, the banks and parastatals remain unreformed. Six chapters report on extensive fieldwork in Kenya, Tanzania, Zambia and Zimbabwe; three chapters compare countries in Africa recovery from disaster, labour markets, new financial markets and one makes comparisons with Asia and Latin America of employment policies. Welcome to CAB Direct CAB Direct is the most thorough and extensive source of reference in the applied life sciences, incorporating the leading bibliographic databases CAB Abstracts and Global Health.

Cite this chapter as: Harvey C.

Constraints on Sustained Recovery from Economic Disaster in Africa

Orthodox measures may be necessary but are frequently not sufficient because of structural factors, some peculiar to individual countries, some found more widely. This book reports why orthodox structural adjustment measures do not have the expected results in Africa.
