Stelarc's Mystical Body

Piccinini echoes the concerns by authors such as Yoshihiro Francis Fukuyama, C. He has made three films of the inside of his body.

Art monograph

Working in the interface between the body and the machine, employing virtual reality, robotics, medical instruments, prosthetics, and the Internet, Stelarc's art includes physical acts that d Stelarc is the most celebrated artist in the world working within technology and the visual arts.

SENIOR MEDIA THESIS: Stelarc

But I have to say I don't read much science-fiction these days. Actualizing interfaces between bodies, machines and virtual task environments, directly experiencing them and thereby being able to articulate something meaningful, has been what these performances and projects have all been about. He is currently a visiting Professor in the School of Arts at , West London.

Works in progress include the Extra Ear Project, a soft prosthesis of skin and cartilage to be constructed on the artist's arm. S: What we have to remember is to be an intelligent agent - whatever kind of agent you are: the virtual agent, the human agent, an animal agent - You have to be both embodied in some physical way, and also embedded in the world. A lot of the essays tend towards hyperbole, but I suppose that such tendencies are to be expected when discussing a man who had himself suspended naked by hooks with his eyes and mouth sewn shut.

SENIOR MEDIA THESIS: Stelarc

His efforts to alter his physical form through the use of technology, including growing an internet-enabled third ear on his arm and creating a prosthetic head, do not We will be able to do things faster, more precisely.
