This is escapist, pulp fiction and as such it reads quite well. Mack Bolan's younger sister, Cindy Bolan, was worried about their father's safety and had secretly paid the officers at TIF a visit, in an attempt to persuade them to leave her father alone and allow her to repay the loan.

**The Executioner (book series)**

After having been shot himself, Bolan barely escapes the clutches of the police, we have Bolan temporarily recuperating from his injury in the arms of a lady — Valentine Querente.

**The Executioner Series by Don Pendleton**

This one has everything up to and definitely including probably the most savage Karen-centric action in any book we've ever seen. Stony Man Doctrine was also published as an audio cassette tape. This book has probably five of those jokes.
