

# Design, automation, and test in Europe - proceedings, Munich, Germany, March 6-10, 2006

IEEE - Publications

Description: -

-  
Electronic industries -- Automation -- Congresses  
Computer-aided design -- Congresses  
Electronic circuit design -- Data processing -- Congresses  
Electronic systems -- Design and construction -- Congresses  
Design, automation, and test in Europe - proceedings, Munich, Germany, March 6-10, 2006  
-Design, automation, and test in Europe - proceedings, Munich, Germany, March 6-10, 2006  
Notes: Includes bibliographical references and index.  
This edition was published in 2006

Filesize: 57.39 MB

Tags: #dblp: #Design, #Automation, #and #Test #in #Europe

## Selected publications by Mongi BEN GAID

Selected publications by Mongi BEN GAID Selected publications by Mongi BEN GAID Journals A. At the transistor level, we developed a generic methodology to generate characterization based analytical power models for array structures.

Shin, and Jinkyu Lee, Power Guarantee for Electric Systems Using Real-Time Scheduling, in IEEE Transactions on Parallel and Distributed Systems, vol. Asadi, , IEEE Transactions on Circuits and Systems II, Vol. Privacy notice: By enabling the option above, your browser will contact the API of opencitations.

## Dutt

Thesis, Massachusetts Institute of Technology, September 2005. Thesis, Massachusetts Institute of Technology, June 2010.

## Design and Implementation of Numerical Linear Algebra Algorithms on Fixed Point DSPs

Prasanth Ganesan, Ramnath Venugopalan, Pushkin Peddabachagari, Alexander Dean, Frank Mueller, Mihail Sichitiu. Proceedings of the ACM International Conference on Compilers, Architecture, and Synthesis for Embedded Systems CASES , San Francisco, CA, September 25-27, 2005. Patterson, Koushik Sen, John Wawrzynek, David Wessel and Katherine A.

## Dutt

Based upon the mathematical theory of random fields and convex analysis, in this paper, we develop 1 a robust technique to extract a valid spatial correlation function by solving a constrained nonlinear optimization problem; and 2 a robust technique to extract a valid spatial correlation matrix by employing a modified alternative projection algorithm. Khoshkholgh, Keivan Navaie, Halim Yanikomeroglu, Victor C.
