Won't you tell me I'm getting pretty good At looking like I'm having fun You don't need to worry about me But could you pay just a little attention to me? What am I supposed to do? Getting tangled up Human relationships, no way way. And complaining that is not something else is silly. Apart from Izumu, we get some background and Saijō Tamamo, and one single line of dialogue in the entire volume, but one that says a lot about her.

So I ask your help and explain the situation.
