## economics of the COVID

Due to lack of adequate number of trained and skilled personnel, the production system remains thoroughly backward. Education provision expanded, but not as fast as in neighbouring European countries.

## Industrial Revolution: Definitions, Causes & Inventions

The French Ministry of Finance exerted greater control over the economy than the Bank of France. Overview of the United States Growth ates  
The United States is the largest and most powerful economy in the world.

## Economic Policy M. Thatcher

Keynes quit from the conference and using extensive economic data provided by the conference records, Keynes argued that if the victors forced war reparations to be paid by the defeated Axis, then a world financial crisis would ensue, leading to a second world war.

## British Economic Policies

New Public Sector Policy: Public sector attracted priority. With the NEP, the state only allowed private landholdings because the idea of collectivized farming had met strong opposition. They exported the excess, and the children of farmers migrated to cities and towns.

## New Industrial Policy of the Government, Objectives of Industrial Policy

A History of the Global Economy.
