### The influence of word processing on English placement test results

. The major objective was to determine the influence of word-processing and shorthand skills on professional secretaries functions in modern office in North West, Nigeria.

### The influence of word processing on English placement test results

Groups with high and medium levels of experience with word processors wrote slightly more words with a word processor than with pen and paper.

### INFLUENCE OF WORD

On the other hand, the word processor essays produced by students with a low level of experience writing with computers were scored, on a six-point scale, almost an entire point lower than those produced with pen and paper by these same students. Word-processed essays also have a more formal tone and a weaker voice than their pen and paper counterparts. No composition medium differences were observed for the number of mechanical errors.

### The influence of student experience with word processors on the quality of essays written for a direct writing assessment

The study draws a profile of the writing background, attitudes, and skills held by the 650 participating students, and documents changes in these aspects over the study period.

### The mysterious disappearance of word processing

An annotated bibliography concludes the report. We will answer to and honor each solicitation.

## **INFLUENCE OF WORD**

Use it as a guide and not to duplicate the work in exactly the same words verbatim.
