The current status of nitrogen fertiliser use efficiency and future research directions for the Australian cotton industry

Includes considerable discussion of the public relations, technological, business and financial considerations that influence corporate decision making in the pesticide industry and the various conflicts to be found there between means and objectives. Negotiation mandates must make reference to this database and a full report showing how agriculture will change in the course of the implementation of the agreement will be prepared.

Weed control under conservation agriculture in dryland smallholder farming systems of southern Africa. A review

NFUE critical limits still need to be derived for dryland systems.

Agri crop grade 10 lm

Huber Publisher: New York: CABI Publishing, 2002.

Soil fertility status and wheat nutrient content in Vertisol cropping systems of central highlands of Ethiopia

Instead, it will promote other options for reducing risk.

Sustainable Agriculture in Print: Current Books, SRB 97

They suggested that indicators of improved soil quality included increases in infiltration, macropores, aeration, biological activity, water-holding capacity, aggregate stability, and soil organic matter.

Soil fertility status and wheat nutrient content in Vertisol cropping systems of central highlands of Ethiopia

Our task is to establish an environment where opportunities for higher incomes and employment are created for resource-poor farmers alongside a thriving commercial farming sector. Changing from full irrigation to mainly dryland farming, with intermittent irrigation when high river flows permitted, is closer to natural rainfall events. The occurrence of repeated drought and dependence on rainfall which has been erratic and uneven in Ethiopia over the past decades has resulted in a widespread crop failure which in turn has brought a growing awareness of the importance of small-scale water harvesting at both household and community levels Haile, 2007.

Dry Land Agriculture: Key Elements & Challenges

Below are ways by which irrigation water is lost except one: A. Working paper series International Crops Research Institute for the Semi-Arid Tropics.
