## Having a Baby: Stages of Pregnancy

And while you are given an EDD, a lot of babies are not actually born on that day. This is also a suitable environment for sperm survival.

## Your Chances of Getting Pregnant Every Day of the Month

Only 4% babies are likely to be born on the expected date. For instance, if you had intercourse on the 5th of the month, and you did not ovulate until the 8th of the month, the conception will occur on or just after the 8th. To be at your best, you need to feel good about your life and value yourself.

## Implantation Symptoms: Can You Experience Signs of Conception?

Vaccinations shots Some are recommended before you become pregnant, during pregnancy, or right after delivery.

## Fetal development: The 1st trimester

Welcome to prime time for conception! This is because pregnancy does not occur until the fertilized egg implants into the wall of the uterus.
