He, like his brother Kinro, carries his spear wherever he goes.

List of Gintama Characters

He also showed this when he received great info on the Leader of the Petrification Kingdom, even though suffered heavy wounds from it. Equipment Ginro wields a primitive-looking spear.

Ginro

According to Matsukaze, he resembles his former lord, who is hinted to be a distant relative.

Ginro

Vibrant, darkly funny, and courageously candid Tron has written about losing your mind and then reclaiming it in psychedelic, poetic prose.

Gina Tron

He also shows a perverted side, imagining what it would be like to marry Ruri and also showing interest when Senku tries to learn more about

Homura, thinking Senku was discussing what type of woman he likes. The first story, for example, uses a mass shooting at a chip factory to point out how inane reactions to national and international tragedies can be. He survived a fatal wound from Ibara, though it was thanks to Kohaku that he survived as she made sure that they were petrified not long after.

Writer

He managed to defeat Agro, the physically third most powerful man in the village, though received heavy injuries in the process. Employment is a book about how we actually spend our lives, wrapped in humor and working-class wisdom. He similarly swam to the Perseus to make it look like he was brave and wanted to join his friends on their dangerous journey to the outside world when, in reality, he believed he would not be able to reach the ship and would return to the island looking like a hero and getting several girls to like him.
