Husbands and wives can have separate estates but the law makes it possible for the couple to agree, in a document other than the marriage contract, on how to manage and develop assets acquired during marriage. One of these, the Osmanlis, or Ottomans, named for their founder, Osman I ruled 1281— 1324 , was located not on the coast, where raiding had its limits, but in Bithynia just facing Constantinople. In the early period there was an abundance of conflicting and chaotic opinions.
