### Integrated rural development in Africa: Back to the future?

This paper highlights the point that the general expectation was that through IRD projects governments could initiate a process that would lead to sustainable improvements in the quality of life for rural people, especially the poor, and would help transform undeveloped rural settings into cohesive communities with profitable productive opportunities where members enjoyed basic public and social services. Page Count 268 Abstract As part of an A. New rules supported a radical shift away from upward accountability to downward accountability to community members.

### Integrated Rural Development: Making It Work.

Today, the international experience with such programs is better synthesized and policy makers in countries and donor agencies have learned from years of experience of the power of community empowerment. An assessment of the IRD indicate that some 60 percent of the completed projects had satisfactory results.

### Integrated Rural Development: Making It Work.

Around the two key factors of organizational design and managerial tactics, the report details a wide range of perennial problems and choices faced by IRD project managers in delivering goods and services, eliciting local response, and effecting self-sustaining improvements. ..:WIDA:..

In the 1970s, the World Bank and other donor agencies entered poverty reduction and rural development in a major way with IRD programs.

### Integrated rural development in Africa: Back to the future?

This paper reviews the general approach followed by governments and donors to support African agriculture and rural development over the last several decades. While recognizing the hurdle that citizens in the developed world would have to overcome to allow increasing sums of money to be used to assist the poorest of the poor, he emphasized that rural development was to be the centerpiece of his plan to raise the productivity of the poor.
