Five trends that will change the Polish and European economy

We are looking at five selected trends - important and current ones. Data privacy Important changes in data protection provisions are sweeping across the EU in 2018.

Poland Economic Growth 1995

Interest rates and inflation remain low, despite massive deficit-financed relief packages. It would not be surprising if the fourth quarter saw unemployment returning to the 3.

Economic and political outline Poland

And suddenly the lockdown changed everything in March. In Poland, most job opportunities, around 34%, will be for professionals high level occupations in science, engineering healthcare, business and teaching , followed by around 15% for service and sales workers Figure 3.

5 Economic Trends to Watch in 2021

Parliament is composed of the Senate upper house, which has 100 seats and whose members are elected by a majority vote on a provincial basis, for a four-year term of office and of the Sejm lower house, which has 460 seats and whose members are elected by a complex system of proportional representation, for a mandate of four years. Both will require more and better investments in innovation and people. Poland has emerged as a dynamic market over the past 25 years and has become a major actor within Europe, being the tenth-largest economy in the EU.

Economic and political outline Poland

The state is playing an increasingly significant role in stimulating the economy, and such its functions are becoming socially accepted. . Economic Outlook Trade recovery in the euro area, combined with improved confidence and a rebound in private consumption and investment, is expected to support a moderate recovery of around 3.
