## The Role of Faith

First, as Philip Jenkins and others have underscored, both Christianity and Islam are expanding with great rapidity precisely in those areas of the world that have been most buffeted by the forces of colonization, decolonization, and now economic globalization. What are the foundational elements that make up our worldview? Cooper emphasized the definition of variables, validity and reliability of measures, representativeness of the sample sample size, sampling method, and response rates , research methods quality of experimental manipulation and adequacy of control group for clinical trials , how well the execution of the study conformed to the design, appropriateness of statistical tests power, control variables , and the interpretation of results.
