## Bradshaw's Hand Book to London, Claremont Square (no,56)

Today, the New River Company is a subsidiary of the property company Derwent London plc I am constantly fascinated by how you can still find evidence of centuries old institutions across London. These were agreed to, and the lease granted on 3 April 1837.

## Smithfield Square's Fascinating Past : Part One

. The original brick 'cistern house' of 1613 was built by Stephen Boone, likely to have been an individual of standing, given the project's profile; its architect, and the building's appearance, remain unknown.

## Victorian London

A section of a map of London c. The pumping station came about because of the growth of London and a change in regulations requiring filtration treatment following a Cholera outbreak in London.

## A new century approaches

Captain Holford The Holfords were very rich. It is likely on hearing the bell from the kitchen, servants would have been summoned to carry human waste down five flights of stairs or lug buckets of hot water up for baths. Birding enthusiasts will want to visit Three Rivers Avian Center, a shelter for injured and endangered wild birds.

## The science behind the Flint water crisis: corrosion of pipes, erosion of trust

Two years later the Rev.
