ASPR TRACIE

If you have a small business and your septic system has received chemicals, take extra precautions to prevent contact with water or inhaling fumes.

OCDD

Burying or burning is no longer acceptable except when permission or a waiver has been granted because of the side effects of smoke and fire from burning, and potential water and soil contamination from burial.

Emergency Preparedness Information

Do not use flush the sewage system until water in the soil absorption field is lower than the water level around the house.

ASPR TRACIE

Everyone—not just the government—needs to be involved in a systematic effort to keep the nation safe from harm and resilient when struck by hazards like natural disasters, acts of terrorism and pandemics. You can to distribute to your community. Being prepared may not prevent a disaster, but it will give you confidence to meet the challenge.

Prepare For Emergencies

Owners or operators of damaged facilities may be responsible for reporting spills. Every day, we take steps to help people and communities to be more prepared by developing the capabilities needed to prevent, protect against, respond to, recover from, and mitigate against all threats and hazards. WELCOME TO ASPR TRACIE Brought to you by HHS ASPR, the Technical Resources, Assistance Center, and Information Exchange TRACIE was created to meet the information and technical assistance needs of regional ASPR staff, healthcare coalitions, healthcare entities, healthcare providers, emergency managers, public health practitioners, and others working in disaster medicine, healthcare system preparedness, and public health emergency preparedness.

Emergency Preparedness Information

NWR broadcasts official Weather Service warnings, watches, forecasts and other hazard information 24 hours a day, 7 days a week.
