Learn about short-pulse lasers that are driving extreme physical processes on record-fast time scales and opening new directions from material processing applications. In this context it is interesting to see how Masuda's work on the surface-discharge-based Boxer charger, first reported over 30 years ago, has now developed into dielectric barrier discharge DBD systems for the removal of noxious molecules from industrial and vehicle exhaust gases.

A very common issue in the said domains is that the pertinent problems result in non-linear coupled differential equations which are not easily solvable.

**international conference york: Topics by Science.gov**

The framework includes four domains: 1 background research, 2 stakeholder support, 3 effective policy implementation and 4 evaluation and dissemination.

#### **Solidification and gravity 4 : proceedings of the 4th international conference on solidification and gravity : held in Miskolc**

It provided an opportunity for investigators from different countries to share methodologies and to discuss recent results with a focus on the *Chlamydomonas* experimental system. The 1967 Invitational Conference on Testing Problems dealt with various aspects of change in education. As well as several international activities the international conference on fundamentals and applications of HIPIMS continues the success story of the HIPIMS days, initiated in 2004 at Sheffield Hallam University, UK.

The second type includes those that separate experimental biologists from their colleagues who work on theory or computation. The Best Poster Award was issued by *Physica Scripta* to Michael Winkler University of Potsdam, Germany in recognition of their poster presentation at TMB-2011. The editors express their thanks to those authors who contributed the papers published in this proceedings, which reflects the scientific value of the conference.
