Welcome to Microsoft Teams

It is important that staff -- especially front line staff who routinely interact with the public -- understand the requirements on modifying policies and practices, communicating with and assisting customers, accepting calls placed through the relay system, and identifying alternate ways to provide access to programs and services when necessary to accommodate individuals with a mobility disability. For example, provide links to informative articles, eLearning videos, and interactive online tutorials.

Libraries

If an action would result in an undue burden, a public entity must take any other action that would not result in an undue burden but would nevertheless ensure that individuals with disabilities receive the benefits or services provided by the public entity. A computed tomography CT scan of the head was obtained.

The Integrated Library System (ILS) Primer

Patient Scenarios The learning scenarios in this section can be used to reinforce medical management information pertaining to foodborne illnesses, such as that provided from the previous sections of this primer.

10 Microlearning Activities To Add To Your eLearning Library

The adorable, colorful illustrations are sure to attract young readers and listeners alike.

Marijuana: A Primer

There is no charge to use the readers and save digital copies.

Libraries

To complement persistent chat and messaging capabilities, Teams offers a comprehensive meeting and calling experience, with built in, fully

integrated voice and video. Public entities may not ask about the nature or extent of an individual's disability. Also included is a CME component.

Welcome to Microsoft Teams

Emerging foodborne diseases: an evolving public health challenge.
