

Isolation, molecular cloning and characterization of cocksfoot grass pollen allergens

University of Birmingham - Aeroallergens and pollinosis: Molecular and immunological characteristics of cloned pollen allergens

Description: -

-isolation, molecular cloning and characterization of cocksfoot grass pollen allergens

-isolation, molecular cloning and characterization of cocksfoot grass pollen allergens

Notes: Thesis (Ph.D.)-University of Birmingham, Department of Clinical Chemistry.

This edition was published in 1990

Filesize: 47.67 MB

Cloning of Birch Pollen Allergens

PLoS ONE 2012, 7 4 , e35697. Int Arch Allergy Immunol 112, 412-414.

Isolation and Characterization of Allergens from Ragweed Pollen. II*

Studies with pollen and plant extracts. Clin Exp Allergy 27, 246-251.

Environmental and molecular biology of pollen allergens

Separation and characterization of potential allergens from cultured baby hamster kidney cells. The deduced amino acid sequence of Bet v I showed strong homologies with several pathogenesis related proteins from different plants.

Molecular Characterization and Environmental Monitoring of Grass Pollen Allergens

Binding properties of a mannose-specific lectin from the snowdrop *Galanthus nivalis* bulb.

Molecular Characterization and Environmental Monitoring of Grass Pollen Allergens

Potsus, Lawrence Goodfriend, David G. American Journal of Botany 1979, 66 3 , 245-252. The present study provided important information for future experiments on the molecular cloning of the elucidated allergen.

Molecular Characterization and Environmental Monitoring of Grass Pollen Allergens

The recombinant Phl p II was expressed in *Escherichia coli* and showed similar IgE-binding capacity as the natural allergen. Journal of Allergy and

Clinical Immunology 1976, 58 1 , 51-59. Biochemistry 1978, 17 8 , 1499-1506.
