## Prehistoric Iberia

The lack of U8a lineages in Africa points to an European and not a North African route of entrance.

## Prehistoric Iberia: Genetics, Anthropology, and Linguistics : [proceedings ...

The cultural evolution of the area had already been considered in terms of influence from the eastern Mediterranean but this book uses site catchment analysis to give an economic baseline for all thirty-five of the better-known prehistoric settlements of the region. And what are the archaeological indicators for the empirical analysis of these issues? Focusing on Iberia, but with a permanent connection to the wider geographical framework, this book presents, for the first time, a chronologically comprehensive, up-to-date approach to the issue of state formation in prehistoric Europe. It focuses on the active and interactive role of space and time in the production of any social environment, drawing equally on contemporary theory and on case-studies from Mediterranean prehistory.

Which could be possible if the older J1 arrived with the Capsian transition in North Africa as was recently suggested. Conclusion It has been demonstrated, for the first time, that Basques show the oldest lineages in Europe for subhaplogroup U8a. Despite the fact that palaeoenvironmental conditions of the Strait area during the last glaciation would have allowed the movement of humans in several moments, the current archaeological record, besides some techno-typological similarities, does not allow us to conclude any kind of Aterian contribution in the formation of the peninsular Solutrean industries.

## Prehistoric Iberia

The idea was bringing together specialists who could address not clearly resolved historic and prehistoric issues regarding ancient Iberian and Mediterranean populations, following a multidisciplinary approach. Site catchment analysis assumes that people minimised transport costs in

production and that ancient and modern resource spaces correspond systematically. She has published papers in *Journal of Iberian Archaeology* 2006 and Mesolithic.
