Stomach ulcers: Modern medical studies have found that numerous diseases - gastric ulcers, ulcerative colitis, coronary artery disease, Kaposi's sarcoma and cervical cancer to name but a few - are triggered by infectious processes caused by bacteria or viruses. Manufacturing errors, in which one herb is mistakenly replaced with another, also have resulted in serious complications.

Cách để Xử lý vết xước sâu: 14 Bước (kèm Ảnh)

They are also helpful in protecting the liver from various diseases such as hepatitis and cirrhosis. The seeds contain large amount of tenacious mucilage and potassium salts. These antioxidants are different from those obtained from fruits and vegetables and therefore as a regular part of our diet they can provide additional benefits towards a healthy lifestyle.
