Books & Treatises: Energy & Natural Resources

Chapters cover the individual natural resources used to produce energy and the book concludes with the development of a clean energy policy for the future. In another example, we agreed with the Land Registry that they would add the wording from the 1904 deed that the mineral owner was not permitted to enter the surface of the land to work the minerals or cause any subsidence to the land or of the buildings on it. The industry was therefore able to commence operations after a few weeks of being closed due to the lockdown.

Books & Treatises: Energy & Natural Resources

The policy on indigenous ownership in the mining sector is being scrapped in order to attract investment in the mining sector. Trieste Publishing has a massive catalogue of classic book titles. There has been a push in Parliament to have the Mines and Minerals Act amended to take into account the challenges that have been identified in the existing Act.

In spite of this, we agreed an indemnity policy that covers both trespass and subsidence as it should give greater comfort to plot purchasers - although the premium is lower due to the wording of the reservation. Exclusive prospective orders are issued for a maximum of six years, being renewable for a period of three years.
