that is a percent of the amount owed.

### R317

The SIU shall not cause or allow discharges to the POTW to continue after 180 days of the effective date of this subchapter except in accordance with an individual wastewater discharge permit issued by the Director. This requirement does not apply to drip irrigation.

### R317

An industrial user subject to a categorical Pretreatment Standard or categorical standard.

### BNC British National Corpus Frequency Word List

Many different designs may be used in laying out absorption systems, the choice depending on the size and shape of the available areas, the capacity required, and the topography of the dispersal area. Minimum depth of cover over the bundles: 12 inches. Design and equipment shall emphasize ease of maintenance, longevity, and reliability of components and shall be proven suitable by operational experience, test, or analysis, acceptable to the regulatory authority.

### List of Amc

If necessary, a more permanent barrier may be required following construction. A late fee will be assessed to the customer
