Atlantic Fisheries Policy Review

In setting the overall policy direction DFO would be responsible to ensure that new rules would be consistent with its overall policy goals and particularly with the objectives of sustainable utilization and orderly management.

Fisheries Committee on Nov. 28th, 2016

These apparent shortcomings appear serious.

fisheries

More importantly, these disputes, if at all extensive, create great uncertainty in the minds of resource users about future harvest opportunities.

Dawn A. Russell and David L. VanderZwaag, eds., Recasting Transboundary Fisheries Management Arrangements in Light of Sustainability Principles: Canadian and International Perspectives, Ocean Yearbook Online

The Province of Manitoba is developing drainage regulations to streamline approvals for low-impact drainage works.
