## The Bantu Expansion: How Bantu People Changed Sub

Beiträge Zur Europäischen Und Afrikanischen Archäologie Für Manfred K. These dense and humid forests situated in the northern part of the Bantu area imposed a major change in habitat on early migrant speech communities, which would have been a serious restraint on their dispersal, were it not that the Central African rainforest underwent a major climate-induced crisis, which started at its periphery around 4,000 years ago and struck its core around 2,500 years ago. The total number of Bantu speakers is in the hundreds of millions, estimated around 350 million in the mid-2010s roughly 30% of the total or roughly 5% of

## Bantu peoples

Wherever early Bantu speakers started to develop a sedentary way of life, they left an archaeologically visible culture.

## Bantu Expansion

Such prehistoric spread-over-spread events recurrently led to Bantu-internal language shift and eventually to language death.
