Principles of trauma therapy: A guide to symptoms, evaluation and treatment 2nd ed.

## Trauma Redefined in the DSM

Over the past 15 years, between increases in school and community violence in the United States and unrelenting wars overseas, overt exposure to traumatic events has become an epidemic.

## Learning disabilities and behaviour that challenges

A meta-analysis of 36 studies. Parent-training programmes include training to promote the communication and social skills of children with a learning disability. Quality measures Structure Evidence of local arrangements to ensure that community learning disability teams or relevant children's services for example, disabled children's teams and service providers work in partnership with the families and carers of people with a learning disability and behaviour that challenges to develop a care and support plan that includes how to prevent or respond to a crisis.

## Trauma Redefined in the DSM

Furthermore, a growing body of evidence suggests that a traditional diagnosis of PTSD is not sufficient to describe the range and intensity of symptomatology experienced in survivors of unrelenting and recurrent abuse, notably abuse during early stages of development. Secondary traumatic stress in case managers working in community mental health services.
