I got some nice shots from both, including a wedding party getting their photos taken.

**Our Team — Landscapes in Motion**

I am making a book for reference and this is the first to go into it. This photo of Peyto Lake was taken in July after a summer snow storm - most of the snow melted by noon. Can you guess which of I took using my filters and filter holder system? Webb has used old photos to study the behavior of waterways such as the Colorado River and to see how vegetation has changed in the Grand Canyon.

## Canadian Rockies Photo Tours & Workshops

A further cause of change is climate change, linked to the extent of both glaciers and forests.

## Seven Helpful Tips to Improve Your Landscape Photography

This functionality is provided solely for your convenience and is in no way intended to replace human translation. MORaine LAKE BANFF NATIONAL PARK Moraine Lake -is about a 20 minute drive from Lake Louise. If you come don't worry about the weather because it changes around each mountain and if it is raining it might be sunny around the corner.

## Historical Landscape Change in Remote Mountainous Parks: Management Challenges Observed Through a Repeat Photographic Lens

Get to know the people leading the research teams of Landscapes in Motion! Tons of features, compact and easy to fly. Robson Provincial Park: Visualizing 100 Years of Landscape Change, 2018.
