Working

No organization will openly admit to discriminating against a woman. Change and Challenge is a remarkable contribution to the sciences in that it corrects many existing misconceptions while simultaneously providing an impressive body of new data with explanatory value that brings the professions a great deal closer to a scientific explanation of women and the relationships which obtain between females, their societies, and their cultures. Other contributions investigate women's status and movements as gatherer-hunters, peasants, textile workers, miners, servants, craftworkers, prostitutes, housewives, mothers, and professional women.

Women cross

It is very inspiring to see that and it gives me hope that as a woman I too can hold a high-level position. Women face difficulties in the corporate world because of gender bias even in this day and age when awareness of the problem is prevalent.

R. Rohrlich

The editor's conclusive chapter is a brilliantly conceived capsulization and integration of the great variety of data and theory in the book. Ann Hopkins where Hopkins was denied a partnership position because she acted in too masculine of a way Northouse, 2016, p. Even though women are obtaining degrees and demonstrating that they are just as qualified on paper for these leadership positions, they are being passed over for these prized jobs.

Women cross

According to Northouse 2016 p. The book is fairly global in its approach, as well.
