## Art Evaluation: How to Appreciate Art, Judge a Painting

And this requires a certain amount of knowledge. Digital evidence can be found on any server or device that stores data, including some lesser-known sources such as home video game consoles, GPS sport watches and internet-enabled devices used in home automation. The answers to these questions can furnish interesting information about the intentions of the artist.

## Sight and Sensibility: Evaluating Pictures

Pressure, temperature, light touch, vibration, pain and other sensations are all part of the touch sense and are all attributed to different receptors in the skin. To sum up, painters use colour to stimulate the emotion, capture the naturalist effects of light, lend character to a figure or scene, and add depth to an abstract or semi-abstract work. This assessment is especially effective for young children if the phonemes of one word are contained within the second word e.

## How does the way food looks or its smell influence taste?

In some assessments of letter-sound knowledge, the letters are embedded in the context of words, and the child is asked to identify the first letter or sometimes the vowel sound of a spoken word. The more information we can glean about the context, and the work of art itself, the more reasoned our assessment will be.

## Sight and Sensibility: Evaluating Pictures, The British Journal of Aesthetics

Teachers who use oral reading as a decoding assessment need to pay careful attention to the child as they read, and need to be aware that the child may know some words because those words are in the child's sight-vocabulary, and the child may know other words because she is guessing.

## The Metaphysics of Beauty

Historically, Impressionism and expressionism notably were the first international movements to exploit the full potential of colour.

## Sight and Sensibility: Evaluating Pictures

Of course, these suggestions are no more than stereotypical possibilities, but they serve to illustrate the role and characteristics of site-specific works of art.
