The Advance of Technology

The University of Southern Mississippi -- de Grummond Children's Literature Collection Unprocessed Manuscript Collection Collection Title: G. The section on newspapers is particularly well handled, the assessment of cartoons as a form of information and persuasion is excellent, and the extremely current coverage should make this superior for science supplementary reading.

G. Allen Foster Papers

Today they live very similar lives. America and Russia may be on the brink of sending men to the moon, yet two-thirds of the world's inhabitants have not enough to eat. The used of flaked flint tools by primitive man is no less spectacular than the building of nuclear reactors by present-day man.

Workers fulfil economic functions that have no personal meaning, for them society is a prison house of economic servitude where hopes remain denied. This then is the contradiction of today. In the field of science and technology men have asserted their genius more often than not towards anti-human ends; in the field of human relationships they have abysmally failed. Pacific Islands University exists to provide accessible, excellent, transformational Christian higher education and ministry training to the people of Micronesia, the Pacific islands, and to the ends of the earth.

COMMUNICATION:FROM PROMITIVE TOM

He provides a chronological record of the communication advances from the time grunts became speech and pictures became written symbols.

Building Bridges Through Reading: How People Communicated Long Time Ago

This is particularly evident in the discussion of electronic methods of human communications, where readers with little grasp and less interest in purely technological matters can intelligently absorb some of the facts from the stories surrounding them.
