‘Disruptive technologies’ transform Asian agriculture

Crop shifts contributed about one-third of the growth in land productivity, especially in periods of limited technological change and after 1947 in India and Pakistan. He suggested the development of an active regional platform that would suggest a roadmap based on the current status, would help share knowledge, initiatives and advocate for policies relating to opportunities for capacity building and regional partnerships. Agricultural Water Management, 95 9 : 993-1002.

Development Of Agriculture In Southwest Asia And East Asia

The Pleistocene- Holocene transition occurred in East Asia between about 14,000-6000BC. Similarly, Table 3 presents change in wheat yield from the adoption of different climate smart technologies.

Climate Change and Agriculture in South Asia : Alternative Trade Policy Options

Social Exchange and Networking: This is the feasting hypothesis which argues that the desire for new things, new states, and recognition as well as ability to throw feasts led to development of agriculture in this region.

Scaling sustainable agriculture in South Asia

Cultural transformation is however evidenced by permanent villages, houses and inhuman cemeteries. For example, a UNDP study found that, in Nepal,
