Thinking of Attu?! — The Birding Project

These handmade items were a must to buy. By the end of May, U.

Attu Homepage

This time, however, there was no combat involved, as Japanese forces had fled the island under the cover of fog several weeks before the Americans arrived. The United States government decided to construct a station on the southern tip of Attu, at Theodore Point. It became more participatory and collaborative when it grew to include boat trips to revisit each village with former residents and their descendants.

Attu

Well, during WWII, the Japanese took over Attu. It did not return again until 1980, when it consisted of the naval station residents at Massacre Bay, and was made a census-designated place CDP.

Attu Homepage

At events hosted by the National Park Service, Aleutian-Pribilof Island Association and the Aleut Corporation, the Attu descendants were welcomed into the Unangan community and learned about Unangan art, language, culture and history. It's worth it, I promise. The equipment to build the station came out of and was ferried on barges and landing craft to Baxter Cove, about one mile east of the station.

Attu

Does Anyone Go to Attu? As I spend my days writing, and sorting through thousands of photos, hours of video, and listening to the birders I interviewed in 2016, I can't help but feel nostalgic for the places that have become an essential part to my story.

Attu

Birding tours can still reach Attu but only by boat, following a multi-day trip from. The Japanese defenders under Colonel did not contest the

landings, but rather they dug in on high ground away from the shore. Army vehicles would not work on the tundra.

Attu Island

The equipment to build the station came out of Holtz Bay and was ferried on barges and landing craft to Baxter Cove located about one mile east of the station.

Thinking of Attu?! — The Birding Project

However, Attu Village had not yet been evacuated when the Japanese invaded.
