## Over 10,100 households in northern communities to have access to improved broadband Internet service

The mentors provide after-school tutoring at the junior high, and also invite the younger students to campus once a month to learn about its resources and opportunities. The projects in Yukon and the Northwest Territories will provide speeds of 50 Mbps download and 10 Mbps upload with unlimited data to close to 26% of the households in those two territories.

## Community Commons

A broad repertoire of options increases the chances of success in an outreach effort.

## Family

The state also required county health departments to submit plans on how they will control the spread and treatment of Zika. Includes chapters on aspirations and expectations, self-efficacy, homework and study habits, engaging families in reading, reading and literacy, college and career readiness, partnerships, and more. Awards are made on a first come, first served basis to eligible candidates who submit complete applications with all necessary supporting documentation.

## Over 10,100 households in northern communities to have access to improved broadband Internet service

Each state is handling control of the virus differently. PR SJR 156 addresses rural infrastructure funding.

## Telehealth Programs

You can about your constituents and their environments in numerous ways, including conducting surveys, focus groups, and interviews. Additional collaborators with expertise in mitigation, disaster trauma, and tribal recovery were included to provide subject-matter expertise. OCRA Involvement Next Level Connections Grant Program The Next Level Connections Broadband Grant Program is designed to promote access to broadband service to all areas of the state which is necessary for a highly functioning 21st century economy.

## **CORONAVIRUS VACCINE: 5,000 people from underserved communities to be vaccinated at National Western Complex**

Provides a snapshot of three school—community partnerships in action and illustrates how diverse programs and models take advantage of five core strategies to effectively build and sustain partnerships for learning.

### **Intentional Communities**

Sorting through a massive amount of disaster preparedness data presented its own challenges for the handbook project team. Although we discuss these methods by category, the divisions are not rigid. We encourage you to review the latest and start preparing your documentation now for review.
