**Gates by Manes, Stephen and Andrews, Paul**

He never is going to quite grow up, and he is always going to be a bit of a mystery to those who did not become forever fascinated with computers by age thirteen. For me, the two stories become reality in what I now see before me. After reading this book I felt I understood the essential Bill Gates.

First, let me say that I wish the authors had updated the book, since the computer business has gotten VERY fascinating since the launch of Windows 95, as the Internet seized the day and also as an intrusive DOJ started an effort to dismantle a 20-year-old company that had suddenly become America's Public Enemy No. Also a very in depth account of the earlier life of Bill Gates and the formation of Microsoft. Vivid and definitive, Gates details the behind the scenes history of the personal computer industry and its movers and shakers, from Apple to IBM, from Steve Jobs to Ross Perot.

**quizapp.evertonfc.com: Gates: How Microsoft's Mogul Reinvented an Industry and Made Himself the Richest Man in America eBook : Manes, Stephen, Andrews, Paul: Kindle Store**

The book is packed with interviews and amusing or interesting anecdotes.

Gates is an interesting guy, one you have to admire without necessarily wanting to play bridge with him. As Microsoft's dominance extended around the globe, Bill Gates became idolized, hated, and feared. .

### **Gates (1994 edition)**

But because the authors evidently believe that Microsoft has done lots of evil, every conflict Microsoft had with a competitor would be Microsoft's fault. I was too busy working to read the print release back in 1993, but I just finished this 20th anniversary April 2013 Kindle re-release. In high school he organized computer enterprises for profit.
