Mergers in Higher Education by Julia Eastman, Daniel W. Lang

Most of the new students come from the underserved communities that GSU has committed to helping, and most face the kinds of academic challenges that GSU has been working to address over the past decade. While it is true that more businesses are adopting design thinking as a model for achieving better results, enhanced innovation and improved service to customers, as evidenced by several new books about and targeted for the business market, the ideas behind design thinking emerged from the methods that are common to nearly all design fields, be it industrial, graphic, instructional or any other design profession. The two university presidents who served during that time, along with their provosts, championed those efforts, provided resources, allowed the student success team to follow the data wherever it led, and encouraged the team to pursue disruptive solutions.

When mergers fail: a case study on the critical role of external stakeholders in merger initiatives

While each merger is special and unique, our study of over one-hundred mergers, interviews with over thirty leaders having been involved in a merger, and a thorough review of the literature revealed important underlying principles. Is it time to re-imagine how revenue and assets are deployed to make colleges and universities more sustainable places? These new products must give colleges and universities at the precipice of change some runway to move toward a better outcome.

The politics of mergers in higher education in South Africa

Drawing on extensive interviews with university members, public officials, and experts in organizational restructuring, and on their professional involvement in the two mergers, the authors elucidate what prompts higher education mergers, what is involved in the process and what determines the outcomes.

Mergers in Higher Education Lessons from Theory and Experience

There is truly something for everyone! But aside from that it's free. Take the University Innovation Alliance UIA, for example. Greater predictability through structured scheduling In 2014, more than one-third of students who enrolled in college attended part-time.
