Life after Léa: War and Trauma in Colette's *La Fin de Chéri*

First, it focuses on the ways in which the novel intersects with the 1920s debate on gender identity, which conflates with a more generalized sense of cultural despair that was discernible after 1918 in diverse political, social and literary discourses. And as the reader you join the other characters in the book in trying to figure out the cause of his melancholia. » Les marronniers pressés pesaient sur la chaleur prisonnière.

La Fin de Chéri by Colette

The main character just mopes around Paris feeling sorry for himself. Is it maybe just because he is a spoiled brat who never really grew up? The book description is a little misleading.

. He kills himself not over lost love, but over the loss of himself.

The Last of Chéri

For those of you who don't know the story, I shall end it there. I have some more of the author's books TBR and I look forward to them. I read Chéri a while back and while I didn't particularly care much for any of the characters the descriptive writing is fantastic.
