### Parque Nacional do Pantanal Matogrossense (Poconé)

These journeys can be made on either jeeps or also on horsebacks.

### The Pantanal Wetlands Are Burning

There are many diverse ecoregions that can be found there. In the portion of the Pantanal, water levels rise between two meters to five meters seasonally; water fluctuations in other parts of the Pantanal are less than this.

### The Pantanal Wetlands Are Burning

The savannas lie to the north, east and southeast.

### The Pantanal Wetlands Are Burning

There have been more than 3,500 different varieties of plants recorded within the Pantanal.

### Pantanal Matogrossense National Park: All

It's a long way from the UK but so so worth it. At these times, the basin is extremely swampy and marsh-like, almost like a giant pond. And on the other hand, there are almost 159 species of animals.

### Best Pantanal Tours, Trips & Vacation Packages 2021/22

Like most areas in South America, the landscape and environment change with the seasons.

### The Pantanal Wetlands Are Burning

They are more than 124 species of mammals, the main ones being the jaguar reaching 1.

## **Parque Nacional do Pantanal Matogrossense (Poconé)**

The hunger and craving for taking in more or rather taking it all in at one go is not very satisfactory. The best tour to experience the Northern Pantanal from beginning to end.
