Alaska

This profusion of approaches to improving knowledge translation to policy makers and senior healthcare managers highlights the increased recognition of the failure of traditional diffusion approaches to knowledge translation for this target group e. Geophysical Research Letters, 43 23 , 12,146-12,154. By these standards the total output of all social science abstracting services is relatively small.

Use of the Test of Scientific Literacy Skills Reveals That Fundamental Literacy Is an Important Contributor to Scientific Literacy

CRP was the most frequently referred lab test, and clinical symptoms and radiological findings were most regularly consulted for prognosis, which partly explains the high referral rate to radiological testing.

Distance Learning Programs

In the conclusion, the project management office PMO , as the central station of project traffic, is underlined.

Forensic Science

This feature is understandable, but the extra costs, with detailed breakdown, should be described in the Budget Justification. Geological Survey Franz Mueter, University of Alaska Fairbanks Jeremy Mathis, National Oceanic and Atmospheric Administration Jessica N.
