## Naše řeč

One can regress indefinitely; but infinity is not identical to infinity. Other leading figures: Bruno da Longoburgo, Theodoric and his father Hugh of Lucca, William of Saliceto, Lanfranc a disciple of William who taught at Paris, and Mondino, author of the first dissection manual - used for centuries. Ancient methods of diagnosis by auscultation and urinalysis retained and retain their popularity, so that in some places the urinal became the emblem or signboard of the medical profession.

## Origin of the Cannula for Tracheotomy During the Middle Ages and Renaissance

William gave lectures on the importance of regular bathing for infants, and special care for the hygiene of pregnant women. British Library with Wellcome Institute.

## SUMMA 2, Glossarium mediae et infimae latinitatis, Du Cange et al.

The retirement of old men or women into monasteries or convents may have been motivated in part by a desire for continuous medical attendance. Secretariado de Publicaciones e Intercambio Editorial, 2004, pàg.
