The establishment of a School of Social Ecology would give increased visibility to community-oriented teaching and research at UCI, and highlight the University of California's responsiveness to national educational needs and complex societal problems. Social Ecology is the third largest undergraduate major on the campus and carries a relatively high student-to-faculty ratio of 46:3, as of 1988-89.

. Recommendations for schools, districts, states, researchers, and funders include prioritizing the collection of key data disaggregated to allow monitoring of such populations as different minority groups, English language learners, and students with disabilities; disaggregating data on school completers by type of certificate awarded; and collecting detailed data on students who complete twelfth grade but fail exit exams and so do not graduate.
