

Investigation of the classification of the rodent genus Eumys from the middle Oligocene of the Big Badlands of South Dakota using multivariate analysis

Field Museum of Natural History - Assessing the Control of Preservational Environment on Taphonomic and Ecological Patterns in an Oligocene Mammal Fauna from Badlands National Park, South Dakota

Description: -

-

Rodents, Fossil -- South Dakota.

Paleontology -- Oligocene.

Muridae, Fossil. Investigation of the classification of the rodent genus

Eumys from the middle Oligocene of the Big Badlands of South Dakota using multivariate analysis

-

Publication (Field Museum of Natural History : 1966) -- 1284

Publication -- 1284

Fieldiana -- v. 39, no. 3 Investigation of the classification of the rodent genus Eumys from the middle Oligocene of the Big Badlands of South Dakota using multivariate analysis
