## Latin America Economic Outlook

The intent is to keep readers current in regard to the business and economic environments of all the countries of Latin America. Reflecting ongoing economic displacement, chronic unemployment and underemployment, simmering civil unrest, and the escalating violence associated with the rise of the drug trade, human trafficking, and other illicit economic activities, unauthorized migration has risen along with legal immigration. Trade liberalization reforms, for example, are shown to result in higher rates of economic growth through higher investment.
