New York: Simon and Schuster, 1994.

Sowing the Seeds of Democracy in China (豆瓣)

But she herself shows plainly that that is precisely what they were: 'Their activist political life outside the party's control and their organizational skills in linking social groups, generations and reformers inside the political system with democratic activists outside the political system represented something new in China -- an effort to establish an organized alternative to the party. University Press of America, Incorporated, 1983. The three books are similar in style, chronologically consecutive, and together make a comprehensive and shrewdly analytical history of the battles that have taken place over dissident thought in Communist China.

Subject: Communism

We learn an enormous amount from this book about who the important intellectual actors are in post-Mao China as well as about their views, activities, and relationship to elites and how each of these changed during the course of the era. Instructions for Contributors at Cambridge Journals Online.
