Culs-de-sac should be avoided: the basic layout should be designed to allow access through the site by public transport and to deter external traffic using the road system as an unofficial bypass. Permission will not be granted to proposals which do not deal adequately with any contamination or ground stability issues affecting sites, particularly, HSP2, HSP3 and HSP8 detailed below. Developers will be encouraged to use native species in new landscaping schemes and to retain or create features of specific ecological interest.
