Perennial plant

Perennial plants often have deep, extensive root systems which can hold soil to prevent , capture dissolved before it can contaminate ground and surface water, and out-compete weeds reducing the need for. The estimates that profitable, productive perennial grain crops will take at least 25 years to achieve.

The National Gardening Association

With a daisylike form and a moderate height, they give an outstanding pop of colour to summer borders, decorative pots, cutting gardens and mixed perennial beds. Even though they're maintenance, the shrub requires annual pruning to keep it in tip-top shade for the coming year. Keep the harvested seed heads out of humidity to prevent spoilage from molds and let them cure for several weeks.

Perennials from Gurney's: Perennials, Flowers and Bulbs

Those sold commercially as landscape plants are generally hybrids and cultivars of selected species, especially B. Perennials also include plants grown for their flowering and other ornamental value including: bulbs like tulips, narcissus, and gladiolus ; and lawn grass, and other , such as and. In that are warm all year long, perennials may grow continuously.

Perennials from Gurney's: Perennials, Flowers and Bulbs

Divide the plants every three to five years. A very good long-blooming perennial species in this genus is *Campanula portenschlagiana*, commonly called the Dalmatian bellflower. Once sunflowers get started, they can tolerate drought as befits plants whose ancestors grew happily in dry prairie regions.

All About Sunflowers

Some perennials retain their foliage year-round; these are perennials.

The National Gardening Association

The National Gardening Association

Zones 5-8; prefers full sun; blooms late spring to fall One year after planting, lupine-like flowers will pop up, filling your garden with shades of blue, purple, and green. When the European settlers arrived, they immediately recognized the value of sunflowers and sent seeds back to Europe. One recommended cultivar is a diminutive 1-to-2-foot tall version that does not spread rampantly.
