## Shulamit Bat

Particularly this includes giving young farmers at policy level a chance to offer their opinion and experiences. Each mentee met with their mentor for at least two hours per month over the phone, Skype or face to face.

## Print

On the basis of conclusions it was recommended that for first of all the educational level of the study area should be increased. In 1934 she returned to Palestine, now calling herself Shulamit Bat-Dori. Active Involvement of youth in agriculture is very necessary for the following reasons :  
 1.

## The future of farming: The potential of young people in the agriculture sector

With this predicted concentration of the global population in urban areas it is easier to understand why the number of young farmers is in decline. They both became members of Kibbutz , a Hashomer Hatzair settlement.

## The future of farming: The potential of young people in the agriculture sector

For more information read the about the latest innovations in agriculture.

## Role of rural youth in agriculture

This the most challenging factor for agriculture, more so in Africa. To establish the cottage industry in villages so that maximum numbers of Rural Youth get employed there and initiate various agricultural developmental programmes for the betterment of Rural Youth. The first production of the Kibbutz HaArtzi Company addressed the problems faced by.
