## The Gulf Of Maine Is Warming, And Its Whales Are Disappearing

But a team of government experts reported that there may be a 'causative link' between the sharks' absence and the appearance of a pod of orcas specialised in preying on white sharks. . Over the past 40 years, populations of adult Antarctic krill have declined by 70 to 80 percent in those areas, though researchers debate whether that drop is due to the effects of climate change, a rebound in whale populations after the end of commercial whaling or some combination of those pressures.

## Why Are Whales Endangered?

But it was clear, he said, that they were leaving the Arctic in a poor nutritional state.

## Cook Inlet's white whales are vanishing. Scientists still don't know why.

The International Whaling Commission was set up to help regulate whale killings with those countries who signed into the agreement to stabilize whale killing, monitor the whaling industry, and help prevent killings of endangered species.

Experts up and down the coast are urgently investigating because these mammals, with their 12,000-mile migrations, are critical barometers of ocean health. Image by Meghan Dhaliwal As early morning fog lifts off the Baja California coastline, Alushe Camacho steers a small fishing boat through a mangrove-lined estuary, his eyes fixed on the horizon.

## Why are so many gray whales dying in the Pacific?

Overfishing Overfishing is when a company continues fishing to the point where it has an ecological impact on the sustainability of a particular population of fish or other ocean animals. Another shark killed in a similar fashion was found on a beach this year, reports. First, rising air temperatures and greenhouse gas concentrations are causing oceanic warming worldwide.

### **Krill Are Disappearing from Antarctic Waters**

A gray whale sculpture stands in front of the Catholic church, and whale murals adorn restaurants and the elementary school. The larvae must then eat enough food during the late summer and fall to fatten up before winter. This type of construction over the years appears to have a large impact on dolphin populations, especially river and coastal dolphins that are segregated or harmed by creating dams and bridges.

### **The Gulf Of Maine Is Warming, And Its Whales Are Disappearing**

Still, the reasons why Cook Inlet belugas are disappearing are still largely a mystery to researchers. Small scale commercial whaling As stated earlier, several countries still participate in commercial whaling.

### **Krill Are Disappearing from Antarctic Waters**

By 2018, there were only 50 sightings — and none during all of 2019. The negative PR that countries participating in illegal whaling are receiving also discourages continued whaling efforts.
