## What is a geographic information system (GIS)?

The paper takes advantage of recent advances in these modeling techniques and applies them to simulate the British Columbia criminal justice system by exploring different types of what-if scenarios. Despite these initial successes with crime pattern simulations, there are still many challenges ahead.

## What is a geographic information system (GIS)?

The authors of these chapters confront a wide variety of issues concerning artificial crime analysis: validation and calibration, crime specificity, the types of background substrates upon which the agents act, and a host of other topics. Crime Mapping Case Studies: Successes in the Field.

## Geographic Information Science and Crime Analysis

A flat map can show one or more--but never all-- It draws general conclusions from the literature and the papers in this volume. Validation is a topic picked up by a number of the authors of other chapters.

## Geographic Information Systems Technologies in Crime Analysis and Crime Mapping

Mapping crime, using Geographic Information Systems GIS , allows crime analysts to identify crime hot spots, along with other trends and patterns.

## What is Geospatial Crime Mapping?

Cankaya district includes significant concentrations of evening, late-night leisure and shopping opportunities in Ankara.
